

Andres Rodriguez Cantu

a01287002@tec.mx

Profile

Outstanding Computer Science and Technology student at Tecnológico de Monterrey. Interested in optimization, data analytics, automation, and robotics. Experienced in leadership, mentoring, and technology competitions.

Education

Tecnológico de Monterrey B.S. in Computer Science and Technology	2025–Present
PrepaTec Eugenio Garza Lagüera Bicultural High School Diploma with Honors.	2022–2025

Honors & Awards

- **Winner, DATATHON 2026** — In collaboration with LaraData team, we developed a WhatsApp-based application that resolves banking conflicts. (2026)
- **First Place, APOCALIPSIS Hackathon** — Led the development of an innovative solution during the competition organized by the Aerospacial Society at Tecnológico de Monterrey *SAERO*. (2025)
- **Honorable Mention, Data Rush** — Recognized for presenting the best research project in the competition's inaugural edition. (2025)
- **Honors Graduate** — Recognized for outstanding academic performance during high school at PrepaTec. (2025)
- **Robochamp Judge** — Evaluated robotics and technology projects during the competition's fifth edition. (2025)
- **Participant, TMR 2026** — Achieved sixth place nationally on RoboCup Soccer Infrared at the Mexican Robotics Tournament. (2026)
- **Participant, Candidates 2025** — Selected to participate in the recruitment and training program organized by RoBorregos. (2025)

Experience & Leadership

RoBorregos Programming for <i>Soccer Infrared</i> (6th place nationally) and <i>Industrial@Work</i> (navigation and control). Developed autonomous navigation algorithms, sensor processing systems, and competition strategies.	2025–Present
STEAMEX 6832 Mentor Mentor for <i>FIRST Robotics Competition</i> and <i>FIRST LEGO League</i> . Supported programming, system design, and team preparation for competitions.	2026
AIZER Social Impact Coordinator. Organized community service initiatives and coordinated volunteers for social impact projects.	2024–2025
D.A.N.C.E. Project and Human Resources Coordinator. Planned student-led initiatives, managed teams, and monitored project execution.	2022–2025

Skills

Technical: C++, Python, microcontrollers, embedded systems, mathematical modeling, PID control, data serialization, optimization, and $\text{\LaTeX}$.

Professional: Leadership, mentoring, teamwork, effective communication, responsibility, and problem-solving.
